

A160 Drinking Valve Identification Chart

A160 Integral to the Manifold

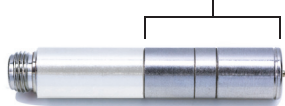

1000-1641
A164 SHIELDED 3/8-32 1.265LG SS

1000-1641-350
A164 SHIELDED VALVE 3/8-32 RAT

Here are some examples of valves with extenders (shown transparent):
Note: Customers to retain the extenders on their manifolds. They should only send in the core '1000-1641' drinking valve for E-vive renewal.

Comments / Notes

- Customer's with A160 valve assemblies that are integral to the cage should be advised to retain the accompanying hardware (IE - nut, washers & seals) and send only the valve for E-vive care. See diagram below.

Valve without Hardware

Valve with Hardware

Sample valve retaining hardware used in assemblies integral to the cage.
